Janus Announces AT&T and PTCRB Certification of their LTE910XF v10.00 CAT-M1 Embedded “X” Footprint Cellular Modem

Aurora, IL – Janus Remote Communications, an industry leader in the design and manufacture of precision IoT (Internet of Things) products and solutions, is pleased to announce “end device” certification of their LTE910XF v10.00 Category M1 “X” Footprint (XF) Embedded Cellular Modem. Integrating Telit’s ME910C1-NA LTE module as their cellular engine, the LTE910XF v10.00 units operate in LTE bands (B12), (B4) and (B2).

Easily integrated into any new or existing hardware applications via its standard 20-pin DIP pin configuration, the LTE910XF is a cost-effective solution for LTE connectivity. Users can choose to mount the devices directly onto their PC Board or simply mount in a DIP socket or header. Their footprint compatibility with other Janus products removes the worry of obsolescence.

Janus Category M1 modems are low power, low bandwidth units specifically designed for IoT applications. Customers can anticipate lower costs for both hardware and data services for these devices.

The Janus LTE910XF v10.00 units with their “end device” certification provide customers with the fastest possible route to market and are ideal for use in any IoT telemetry and Telematics applications including fleet and asset management, vending, security, health and safety, remote monitoring, e-maintenance and many telemetry applications.

About Janus

Janus Remote Communications provides state-of-the-art wireless products and services as well as custom design solutions for the global IoT marketplace: www.janus-rc.com. Janus solutions are widely used by customers in the areas of asset, process, facility and energy monitoring and control; health, safety and security; and in a host of commercial wireless products. Janus is a division of The Connor-Winfield Corporation: www.conwin.com.

About Telit

Telit Communications PLC is a global provider of wireless Internet of Things (IoT) technology and value-added services including connectivity cloud and PaaS Application Enablement Services. www.telit.com

Cost: \$82.50 each at 100 piece quantity – available at our online store
