### **Janus Announces Telus “Safe for Network” certification of their LTE910XF v8.00 CAT4 Embedded “X” Footprint Cellular Modem**

**Aurora, IL** – Janus Remote Communications, an industry leader in the design and manufacture of precision IoT (Internet of Things) products and solutions, is pleased to announce Telus “Safe for Network” certification of their LTE910XF v8.00 Category 4 “X” Footprint (XF) Embedded Cellular Modem. Integrating Telit’s LE910-NA V2 LTE module as their cellular engine, the LTE910XF v8.00 units operate in LTE bands (B13), (B12), (B5), (B4) and (B2), with fallback to HSPA+ networks as needed.

Easily integrated into any new or existing hardware applications via its standard 20-pin DIP pin configuration, the LTE910XF is a cost-effective solution for LTE IoT connectivity. Users can choose to mount the devices directly onto their PC Board or simply mount in a DIP socket or header.

The Janus LTE910XF v8.00 units with their “end device” certification provide customers with the fastest possible route to market and are ideal for use in any IoT telemetry and Telematics applications including fleet and asset management, vending, security, health and safety, remote monitoring, e-maintenance and many telemetry applications.

#### **About Janus**

Janus Remote Communications provides state-of-the-art wireless products and services as well as custom design solutions for the global IoT marketplace: [www.janus-rc.com](http://www.janus-rc.com). Janus solutions are widely used by customers in the areas of asset, process, facility and energy monitoring and control; health, safety and security; and in a host of commercial wireless products. Janus is a division of The Connor-Winfield Corporation: [www.conwin.com](http://www.conwin.com).

**For more information on Telit, visit: [www.Telit.com](http://www.Telit.com)**

Cost: \$115.00 each at 100 piece quantity – available at our store
