

PRODUCT/PROCESS CHANGE NOTIFICATION (PCN)

Number: 1607-1

Date: 7/25/2016

From: Dave Jahr

Product Family: Common Footprint Plug-In TerminusPCB Color Change

Effective Date: 8/1/2016

Reason for Change:

Janus has implemented a change to their purchasing process which will allow buyers to procure PC Boards with standard technical specifications for Common Footprint Plug-In modems in the color that will allow for the greatest flexibility in purchasing.

Change Category: Process change for the procurement of CF Plug-In Modem printed circuit boards.

Executive Summary: A change was implemented in the purchasing process of Janus Common Footprint (CF) Plug-In Modem printed circuit boards that allows purchasing personnel to order the color PCB materials that will allow for most flexibility during the procurement process. Printed Circuit Boards will most often be green going forward. However, if any other color PCB material with the documented specifications of current materials is more readily available, purchasing personnel will have the authority to purchase the most available solution.

Component: Common Footprint (CF) Plug-In Modem PCB color.

Products Affected:

1. GSM910CF
2. CDMA910CF
3. EVDO910CF
4. HSPA910CF
5. LTE910CF

Details and Effect on Product Performance: No impact to product performance.

Process changeover completion: 8/1/16.
