## Elevator Telephone (POTS) Line Replacement

Save 30% to 60% monthly off current telephone bills by replacing copper telephone lines and phone service with a Janus POTSwap!

The Janus LTE POTSwap allows any fixed landline telephone to replace its POTS (plain old telephone service) connection with wireless cellular service via RJ-11. The POTSwap connects directly to the PSTN (Public Switched Telephone Network). And, both dial-in and dial-out voice applications are supported.

### POTSwap setup takes only one minute!

The POTSwap mounting flanges allow fast and easy installation in a location that best suits your requirements. The POTSwap accessories kits are available in two different options: Premium and Standard.

#### POTSwap PREMIUM Kits

#### POTSwap STANDARD Kits

#### Other Applications

- Emergency Phone Kiosks
- Broadcast Trucks
- Marine Telephones
- Mobile Office Trailers
- Gate and Door Access

Janus offers cost competitive AT&T and Verizon voice and data plans! Ask about special POTSwap pricing for Integrators and Resellers See our website for current LTE POTSwap's many product and service options.
