

## Superior Performance in Low-Cost, Compact Designs!

### Connor-Winfield's TiMax Series

are GPS-based timing solutions in integrated, low-cost modules that are designed specifically for precision timing and synchronization of wireless networks.

- Low Jitter
- Cost-Effective
- 1 PPS Time Synchronization
- ETSI-PRC Wander Generation Mask
- Low Signal GPS Tracking and Acquisition
- Highly Integrated Architecture
- S3E Applications

Ti125 Module | SY125 Module | FR125 Module | FTS125 Module | OX125 OCXO | Wi125
